FOUND NOT GUILTY

DEFENDANTS IN PAINTING CASE WERE ACQUITTED BY JURY

WERE OUT OVER AN HOUR

Lyle Case Went to the Jury This Afternoon at 2:15 o'Clock After Argument of Prosecuting Attorney.

The jury brought in a verdict about 3:30 o'clock this afternoon finding each and all of the defendants not guilty.

The "yellow paint" case in which Rankin Lyle is the prosecuting witness, and John Sewell, Ed Curfman, M. A. Hahn, Neil Simerville, C. F. Remus and Harry Todd are the defendants being charged with feloniously assaulting Lyle, went to the jury about 2:15 o'clock this afternoon, after Prosecuting Attorney McCaffrey had concluded his argument to the jury.

The arguments of the attorneys started about ten o' clock this morning, W. G. Sawyers for the state, making the opening speech. He was followed by M. E. Ford and W. A. Blagg for the defense. Mr. Blagg concluded his address at noon.

J. B. Nunnelly, former proprietor of a grocery store in this city, and who witnessed the painting, told the jury yesterday afternoon of the affair as he saw it. He testified that he saw Lyle attempt to hit Harry Todd. He said that a large crowd was around the men, and he was unable to state whether or not any of the defendants pushed or shoved Lyle during the trouble.

John Dinsmore, the next witness for the state testified that he heard Lyle say to John Sewell when the latter secured him by the coat, "John nobody con do this and live." He said that Sewell replied that he had pleaded with Lyle and that he had asked him on several occasions to buy the bonds. Mr. Dinsmore told the jury that there was much excitement among the crowd, and that he was unable to tell who was making remarks. He said he heard a voice call out to "place him in a wagon and ride him about the square" but was unable to say from whom the words came. He testified that before Lyle entered the wagon someone asked what he was going to do, and that the latter replied "I've told you and I'm going to keep my word."

M. A. Peery was another witness to the affair. He said that he had seen the entire proceedings from beginning to end and gave a recitation of the happenings from his viewpoint. He said that Lyle had been asked by the committee if he did not care for the boys over in the trenches, and that he made the reply "The Government can take care of its own business, and I'll take care of mine." He said that Lyle dared Sewell to paint him. He also testified that Sewell did not hit Lyle with the paint brush. He said that Harry Todd took one of Lyle's shoes off and that the paint was placed on his hosiery.

Maurice Sherlock another State's witness told the jury that he had accompanied Lyle to the wagon in which the latter was taken about the square. He testified that the defendants did not place Lyle in the wagon, and that he got into the vehicle of his own accord.

E. G. Cook testified that Lyle was informed by the committee that they were behind in their quota and that his subscription was necessary. He said that Lyle told them that the placing of his quota at the designated figure was a "one man's dongs." He testified that members of the committee told Ly... had bought more bonds th... he was worth dollars ... worth cents. Lyle, he ... it was their own fau... ot have money, and that ... id saved their earnings as he ha... that they would also have money.

Mr. Cook also testified that Lyle had made the remark that he did not care for the boys in the trenches and that he would tend to his own business. He also told the jury that Lyle has made the remark that he would positively not take out any more bonds.

Several of the defense witnesses testified that Harry Todd did not place the rope around Lyle's neck. Todd had the rope, they admitted, but that someone in the crowd grabbed the rope and put it around Lyle's body near the elbows. These witnesses testified the rope was never around Lyle's neck.

Following the testimony of the defense witnesses several character witnesses were examined, all of whom testified to the good name and character of the defendants in this community.

BANQUET A SUCCESS

OVER 170 GUESTS AT THE ANNUAL COMMERCIAL CLUB AFFAIR.

R. L. EMRY TELLS OF PLAN

Prominent Speakers Occupy Places on the Program—Work of Organization Outlined.

Ray L. Emry, secretary of the Commercial Club at Creston, Iowa, addressed over 170 members and guests of the Maryville Commercial Club on the development of the County community idea, at the twelfth annual banquet of that organization at the State Normal school last night. The affair was one of the most successful in the history of the Maryville association, and indication of increased activity by the organization was promised in many of the addresses. In addition to the talk by Mr. Emry, others who occupied places on the program were: G. R. Ellison, toastmaster, G. A. Pickens, secretary of the Club, Ira Richardson, head of the Normal school, Mayor W. A. Garrett, Rev. Gilbert S. Cox, G. L. Wilfley, A. A. Jeffrey and Dean G. H. Colbert of the State Normal school.

Mr. Emry began his talk about 10:45, and because of the lateness of the hour, confined his remarks to a brief analysis of the development of the community plan at his home in Jefferson County, Iowa. He said that the conditions at that place were peculiar, in so far as Jefferson County was primarily an agricultural section, while the county seat at Fairfield was an industrial and educational center. "We need a closer co-operation between these interests," said Mr. Emry, "and it was for this purpose principally that the county community plan was originated." He told of how the first meeting to bring about such an organization was held in 1916, and how frequent meetings were then held until the definite plan of operation was decided upon. "We went about it in a business-like way," he said, "and our representatives went out into the country and talked to the farmers, personally presenting our plan, and asking them to help both the county and the town to advance. We pointed out to them the advantage both to themselves and to the community at large, and believe me, it was one of the easiest things in the world to promote interest in the new project. Within a few weeks after we started we began to receive calls from the farmers, asking how they could aid in the plan and also requests from the business men of the town to lend their services in the plan." Mr. Emry then gave a synopsis of the plan of organization, saying that each township in the county was given a vote in the government of the body. He ended his talk by saying that Secretary Pickens of the Maryville Club was presenting the proper methods for the expansion of the club, and advised all the members to follow the plans which had been presented to them.

The opening address of the evening was made by G. R. Ellison, one of the retiring directors, who told of the work which has been accomplished by the club during the past few years and of the future work and problems which will confront Maryville.

G. A. Pickens then presented the Year's Report of the Club, giving briefly a summary of the work that has been accomplished during the past year, and the manner in which the money has been spent for the improvement and development of Maryville and this community. Mr. Pickens closed his talk with the remark that the spirit of the members of the club was not "what I can do for myself" but "what can I do for my neighbors."

Ira Richardson, president of the Normal school, delivered an inspiring address on "The Normal School and the Commercial Club." President Richardson showed surprise that many of the residents of Maryville have never been within the halls of that institution, and at the opening of his talk extended an informal invitation to every citizen of this commnuity to inspect the buildings. "The citizens of Maryville do not realize what they have here in the Fifth District Normal School," he said, "the institution is one of the five leading educational institutions of the state." He insisted that the name "college" be substituted for "school," saying that the degree

One of the Speakers Will Be Major Bridgman, Who Holds a Record for Battle-Flying.

The Maryville Chautauqua will be held this year from August 4 to 10, according to an announcement made by the Redpath-Vawter Chautauqua System, who is furnishing the attractions.

The man who holds the American record for battle-fyling over the German lines, Major Ray Claflin Bridgman will be one of the lecturers at our chau tauqua this summer. Major Bridgman has spent 600 hours in the air, under battle conditions. This is said to be the record for an American aviator.

Major Bridgman was a student at Yale when the war broke out. He left his studies in 1916 and enlisted in the Foreign Legion of the French army. He was later transferred to the aviation section and soon became a pilot and flight commander in the famous LaFayette Escadrille. In the Escadrille he was associated with Lt. Col. Bill Thaw, Major Luftberry, Capt. James Norman Hall and other famous air fighters.

He has brought down eight Hun machines and has been decorated by both French and American fronts, and has He has had twenty-one months of actual battle-flying over the British, French and Americon fronts, and has participated in seventy-five aerial battles.

Major Bridgman was commanding officer of the 22nd Aero Squadron which destroyed 47 German machines in the last seven weeks of the war, in the battles of St. Mihiel and the Argonne. This is the record for American squadrons in these battles. He was shot down at St. Mihiel, just after he had brought down an enemy plane in flames.

At the chautauqua Major Bridgman will be the speaker in the afternoon of the big band and aeroplane day. His subject will be: "The Romance of the Clouds."

FOUR BREAK JAIL

TWO OF THE QUARTET ARE ARRESTED AT BURLINGTON JCT.

ESCAPE THROUGH WALL

The Two Thompson Boys Are Still at Large—Gibbs Notified Sheriff Dowden.

George Gibbs and "Red" Henderson, two members of the quartet which escaped from the county jail last night, were arrested at Burlington Junction today and are being held awaiting the arrival of Deputy Sheriff Atherton of this city who has been sent to bring them back. John and Charles Thompson, who assisted in the jail break is still at large and is being sought by the authorities.

According to Sheriff Dowden, Gibbs telephoned this morning where he was located and also where the two Thompson boys could be found. Gibbs was in a restaurant at Burlington Junction at the time. Sheriff Dowden got into communication with the constable of that township who picked up Gibbs

The youthful convicts chose a suitable time for their escape last night, the Sheriff being occupied at the court house with the Lyle jury, and no one being at the jail except his wife. According to the story told by Mrs. Dowden, she appeared at the entrance to the cells where the men were kept about 8 o'clock this morning to give them their breakfast. It was rather dark in the room, she said, and after calling several times and receiving no answer, she went inside to investigate. There she found a large hole in the stone masonry of the wall. A large slab had been removed and many of the bricks taken out and piled by the side of the aperture. Evidences of previous attempts to lift the stones out were shown by a sharp instrument.

According to Mrs. Dowden, loose bricks were found several days ago in the jail, and the belief is that the lads have been working for several days in an effort to make their escape carefully hiding the mortar and debris taken from the wall. Last night, she said, the men turned out the light about 9 o'clock and appeared unusually quiet. A table in the main corridor of the jail was recently broken by the boys, and a wire which was used in its construction was undoubtedly the instrument used to pick the mortar and loosen the bricks.

The escape last night recalls a similar incidence about a year ago, when the bars of the jail were sawed thru by the inmates. Sheriff Dowden was informed of the action through one of the prisoners, and was able to prevent the men from getting away.

The Thompson boys and Gibbs were up in court yesterday morning and had their sentence to the reform school increased one year more for breaking up furniture and scattering bed clothing around the jail. One of the Thompson boys, Charles Thompson, being under sixteen years, his sentence of two years to the reform school, was not changed by the court. The boys were up in court Monday on a charge of larceny, having pleaded guilty to stealing several articles from the Martin Pederson home near Guilford.

Henderson was just arrested yesterday on a charge of stealing chickens from Rolla N. Bancroft.

There were no other prisoners in jail.

This jail-breaking is another evidence of the bad condition of the jail building of being unsafe to keep prisoners in. The grand jury at the January term of court in their report said that Nodaway county had no jail.

Farewell Party For Smiths.

Mr. and Mrs. Wilbur Smith of Pickering were the honorees of a farewell party given them last night in the parlors of the Methodist church. The Smiths are leaving Pickering Friday for Bedford, Ia., to make their home and the gathering was a mark of friendship on the part of the people at Pickering who very much regret their departure from the town. The evening was spent informally with games, music and refreshments. Mrs. Smith was presented with a sterling souvenir spoon by her Sunday School class, the Royal Circle.

A Birthday Surprise.

One of the most pleasant social functions of the season was the Hays reunion which was held last Sunday, April 6, at the home of Mr. and Mrs. W. A. Argo, four miles west of Skidmore, the occasion being in honor of the eighty-first birthday of J. T. Hays of Maryville. His children had worked a complete surprise on their father which the aged sire hugely enjoyed. The dinner was all that the famished appetite of a hungry man could desire. We have neither time nor space for particulars but that chicken pie, well! It simply vanished out of sight like a fog before a Kansas cyclone. One pleasant feature at the dinner table was the lighting of eighty-one candles which decorated the birthday cake. The light they afforded gave only faint expression of the joyful countenance of the venerable man in whose honor they were lighted.

Mr. Hays came with his parents and other relatives from Blandinsville, Ill. in 1859. They made the trip in ox wagons and were twenty-six days on the road. They bridged both sections of Grand river and it became necessary to swim their thirty head of stock over the stream.

The party arrived at what is now familiarly known as Burr Oak on Mr. Hays' twenty-first birthday, April 4, 1859, and he says there was about one foot of snow on the ground. The land at that time was entirely unimproved. A double log house was hastily erected in which the party lived until a more commodious residence could be built. Of the original number who came on the above date only three survive. They are J. T. Hays of Maryville, Joseph Hays of St. Joseph, and Mrs. A. C. Barber of Skidmore.

Those present at the surprise dinner Sunday were: Mr. and Mrs. W. A. Argo and family, Mr. and Mrs. M. R. Hays and family, Mrs. Vira Dawson and children of Maryville, Mr. and Mrs. Pearl Hays, Mrs. A. C. Barber and Miss Maude Noffsinger of Skidmore, Mr. and Mrs. Z. R. Alexander of Elmo and Rev. and Mrs. C. H. Sauceman and family.

After wishing Mr. Hays many more such happy milestones of life, the crowd adjourned feeling that such social gatherings is time well spent.

Here's Glorious Relief From Itching Skin Diseases

No More Fiery Pain If You use the Right Treatment

First of all, get it firmly fixed in your mind that the fiery, burning and itching that causes such pain and torture, is not a local skin disease. True, the skin is the scene of the attack, but the skin is fed by the blood and suffers from any impurity in the blood.

This explains why you have been so disappointed in getting any real, lasting relief from the use of ointments, salves, lotions, or other remedies applied to the surface of the skin.

The millions of tiny disease germs which infest the blood keep up a constant attack on the skin, and are not effected in the least by local treatment. They must be routed from the blood.

These germs which saturate the blood cannot be reached except through the blood. When you treat the local irritations with local applications, you must remember that the blood is feeding fresh new germs all the time, to keep the skin irritated, and until the supply of germs is cut off entirely, you cannot expect any real relief.

But S. S. S., the fine old blood remedy, goes directly after the germs that infest the blood, and puts them to rout. This remedy is strictly a blood purifier, and there is no disease germ that can withstand its attacks.

This is why S. S. S. gives such satisfactory results in eczema, tetter, boils, pimples, or any other skin eruptions or disorder. By thoroughly purifying the blood, and cleansing it of every trace of disease germ, S. S. S. removes the cause of all skin eruptions, and restores its normal, healthy condition.

If you want relief that is lasting, because it goes to the seat of the trouble, get a bottle of S. S. S. today, and take it as directed, and satisfactory results will follow. It is sold by all drug stores. Special medical advice about your own case can be had without cost, by writing to Chief Medical Adviser, 102 Swift Laboratory, Atlanta, Ga.

BANQUET A SUCCESS

(Continued from page 1)

conferred by the institution was on a level and of the same value as that given at the State University. President Richardson said that a bill is now before the State Legislature for the appropriation of $250,000 for the development of the college, and that if the bill is passed, it will mean a great development and enlargement of the buildings and the accomodation of many more students here. He showed that the Normal school is an asset to Maryville, through the bringing of many out of town students here, and their consequent expenditure of money at the business houses. He stated that the Normal must have the co-operation of the town for its success, and stated that the faculty was interested in the work being done here in Maryville. "Every member of the faculty should be a member of the Commercial Club," he said, "and we also wish every citizen to show an interest in the work which we are doing here at the Normal."

Mayor W. O. Garrett, made a short talk in which he thanked the members of the club for their interest in the affairs of the city, and for their hearty support of the administration. He said that co-operation between the city and the Commercial Club was needed now, more than ever before.

Rev. Cox spoke of how co-operation in a community among the business men gives an impression of security, and how the spirit of security and honesty is one of the most beneficial assets of any line of business. Co-operation is the acid test of character," he said, "and is a real indicator of the bigness of a community.'

Rev. Cox punctuated his talk with many witty remarks, and had his audience in an uproar of laughter a great part of the time. He said that he was a believer in advertising and that a booster was one of the greatest assets of a community.

G. L. Wilfley spoke on "Looking Ahead" and in his talk recited a story which showed the value of optimism and enthusiasm. He compared the characters of his story to the citizens of Maryville, and showed how push, enthusiasm and new ideas are the things that will place this city to the front. He gave six basic principals on which the Club should act:: Optimism, co-operation, breadth of vision, imagination, enthusiasm and activity.

A. A. Jeffrey, one of the newer residents of Maryville, gave his impressions of the city, and the reasons why he chose this city as his home. "One of the prime motives of my move here," said Mr. Jeffrey, "was the educational advantages offered here to my children. Maryville is one of the best eduactional centers in this part of the state, and the clean, high morals of the place make it one of the most desirable for a man with a family."

Dean G. H. Colbert of the State Normal School, spoke on "Why Every Citizen Should Be a Member of the Commercial Club.' He pointed out that the Commercial Club is an asset to every business man both from a selfish and from an unselfish standpoint. A progressive city attracts people he said, and acts as a stimulus to the value of real estate property, it also promotes better business. Dean Colbert pointed out that it is the duty of every man to help in the development of his community and to assist all projects which are for the betterment of his home life and conditions for his family.

During the program an interpretative dance solo was given by the Misses Mabel Raines and Ruth Miller and throughout the banquet music was furnished by Schumacher's orchestra.

R. P. Hosmer, Bruce Montgomery and Earl Barmann were elected members of the Board of Directors of the Club last night, and U. S. Lloyd was nominated to act as night watchman. He will probably be chosen at a later meeting of the organization.

The banquet was prepared and served by the women of the Y. W. C. A. of the Normal School, who were assisted in their work by members of the Y. M. C. A. IN THE SPRING

When Energy and Vitality are Lowest, then—Influenza!

(By S. C. BOWER, M. D.)

At this time of the year people feel weak, tired, listless, their blood is thin, they have lived indoors and perhaps expended all their mental and bodily energy and they want to know how to renew their energy and stamina, overcome headaches and backaches, have clear eyes, a smooth, ruddy skin and feel the exhileration of real good health tingling thru their bodies. Good, pure, rich, red blood is the best insurance against ills of all kinds. You are apt to suffer from an attack of Influenza if your health is run down.

Purify the blood and you can defy influenza. This is the time to clean house and freshen up a bit.

Drink hot water a half hour before meals, and for a vegetable tonic there's nothing better than Dr. Pierce's Golden Medical Discovery, the old-fashioned herbal remedy, which has had such a fine reputation for fifty years. It contains no alcohol or narcotics and is made into tablets and liquid. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial package.

Melvern, Kans.—"I was troubled with scrofula, in fact, I had it from infancy up until I took Dr. Pierce's Golden Medical Discovery, which was when I was fifteen years old. I took about fifteen or sixteen bottles of it and got entirely rid of the disease. It has never returned since that time and I have often recommended the 'Golden Medical Discovery' to others."—*Mrs. Ida V. Wilson.*

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

FOUND NOT GUILTY

DEFENDANTS IN PAINTING CASE WERE ACQUITTED BY JURY

WERE OUT OVER AN HOUR

Lyle Case Went to the Jury This Afternoon at 2:15 o'Clock After Argument of Prosecuting Attorney.

The jury brought in a verdict about 3:30 o'clock this afternoon finding each and all of the defendants not guilty.

The "yellow paint" case in which Rankin Lyle is the prosecuting witness, and John Sewell, Ed Curfman, M. A. Hahn, Neil Simerville, C. F. Remus and Harry Todd are the defendants being charged with feloniously assaulting Lyle, went to the jury about 2:15 o'clock this afternoon, after Prosecuting Attorney McCaffrey had concluded his argument to the jury.

The arguments of the attorneys started about ten o' clock this morning, W. G. Sawyers for the state, making the opening speech. He was followed by M. E. Ford and W. A. Blagg for the defense. Mr. Blagg concluded his address at noon.

J. B. Nunnelly, former proprietor of a grocery store in this city, and who witnessed the painting, told the jury yesterday afternoon of the affair as he saw it. He testified that he saw Lyle attempt to hit Harry Todd. He said that a large crowd was around the men, and he was unable to state whether or not any of the defendants pushed or shoved Lyle during the trouble.

John Dinsmore, the next witness for the state testified that he heard Lyle say to John Sewell when the latter secured him by the coat, "John nobody con do this and live." He said that Sewell replied that he had pleaded with Lyle and that he had asked him on several occasions to buy the bonds. Mr. Dinsmore told the jury that there was much excitement among the crowd, and that he was unable to tell who was making remarks. He said he heard a voice call out to "place him in a wagon and ride him about the square" but was unable to say from whom the words came. He testified that before Lyle entered the wagon someone asked what he was going to do, and that the latter replied "I've told you and I'm going to keep my word."

M. A. Peery was another witness to the affair. He said that he had seen the entire proceedings from beginning to end and gave a recitation of the happenings from his viewpoint. He said that Lyle had been asked by the committee if he did not care for the boys over in the trenches, and that he made the reply "The Government can take care of its own business, and I'll take care of mine." He said that Lyle dared Sewell to paint him. He also testified that Sewell did not hit Lyle with the paint brush. He said that Harry Todd took one of Lyle's shoes off and that the paint was placed on his hosiery.

Maurice Sherlock another State's witness told the jury that he had accompanied Lyle to the wagon in which the latter was taken about the square. He testified that the defendants did not place Lyle in the wagon, and that he got into the vehicle of his own accord.

E. G. Cook testified that Lyle was informed by the committee that they were behind in their quota and that his subscription was necessary. He said that Lyle told them that the placing of his quota at the designated figure was a "one man's dongs." He testified that members of the committee told Lyl[illegible] had bought more bonds th[illegible] he was worth dollars [illegible] worth cents. Lyle, he [illegible] it was their own fau[illegible]ot have money, and that [illegible]d saved their earnings as he ha[illegible]hat they would also have money.

State Historical Society COLUMBIA

Mr. Cook also testified that Lyle had made the remark that he did not care for the boys in the trenches and that he would tend to his own business. He also told the jury that Lyle has made the remark that he would positively not take out any more bonds.

Several of the defense witnesses testified that Harry Todd did not place the rope around Lyle's neck. Todd had the rope, they admitted, but that someone in the crowd grabbed the rope and put it around Lyle's body near the elbows. These witnesses testified the rope was never around Lyle's neck.

Following the testimony of the defense witnesses several character witnesses were examined, all of whom testified to the good name and character of the defendants in this community.

BANQUET A SUCCESS

OVER 170 GUESTS AT THE ANNUAL COMMERCIAL CLUB AFFAIR.

R. L. EMRY TELLS OF PLAN

Prominent Speakers Occupy Places on the Program—Work of Organization Outlined.

Ray L. Emry, secretary of the Commercial Club at Creston, Iowa, addressed over 170 members and guests of the Maryville Commercial Club on the development of the County community idea, at the twelfth annual banquet of that organization at the State Normal school last night. The affair was one of the most successful in the history of the Maryville association, and indication of increased activity by the organization was promised in many of the addresses. In addition to the talk by Mr. Emry, others who occupied places on the program were: G. R. Ellison, toastmaster, G. A. Pickens, secretary of the Club, Ira Richardson, head of the Normal school, Mayor W. A. Garrett, Rev. Gilbert S. Cox, G. L. Wilfley, A. A. Jeffrey and Dean G. H. Colbert of the State Normal school.

Mr. Emry began his talk about 10:45, and because of the lateness of the hour, confined his remarks to a brief analysis of the development of the community plan at his home in Jefferson County, Iowa. He said that the conditions at that place were peculiar, in so far as Jefferson County was primarily an agricultural section, while the county seat at Fairfield was an industrial and educational center. "We need a closer co-operation between these interests," said Mr. Emry, "and it was for this purpose principally that the county community plan was originated." He told of how the first meeting to bring about such an organization was held in 1916, and how frequent meetings were then held until the definite plan of operation was decided upon. "We went about it in a business-like way," he said, "and our representatives went out into the country and talked to the farmers, personally presenting our plan, and asking them to help both the county and the town to advance. We pointed out to them the advantage both to themselves and to the community at large, and believe me, it was one of the easiest things in the world to promote interest in the new project. Within a few weeks after we started we began to receive calls from the farmers, asking how they could aid in the plan and also requests from the business men of the town to lend their services in the plan." Mr. Emry then gave a synopsis of the plan of organization, saying that each township in the county was given a vote in the government of the body. He ended his talk by saying that Secretary Pickens of the Maryville Club was presenting the proper methods for the expansion of the club, and advised all the members to follow the plans which had been presented to them.

The opening address of the evening was made by G. R. Ellison, one of the retiring directors, who told of the work which has been accomplished by the club during the past few years and of the future work and problems which will confront Maryville.

G. A. Pickens then presented the Year's Report of the Club, giving briefly a summary of the work that has been accomplished during the past year, and the manner in which the money has been spent for the improvement and development of Maryville and this community. Mr. Pickens closed his talk with the remark that the spirit of the members of the club was not "what I can do for myself" but "what can I do for my neighbors."

Ira Richardson, president of the Normal school, delivered an inspiring address on "The Normal School and the Commercial Club." President Richardson showed surprise that many of the residents of Maryville have never been within the halls of that institution, and at the opening of his talk extended an informal invitation to every citizen of this commnuity to inspect the buildings. "The citizens of Maryville do not realize what they have here in the Fifth District Normal School," he said, "the institution is one of the five leading educational institutions of the state." He insisted that the name "college" be substituted for "school," saying that the degree

The Maryville Chautauqua will be held this year from August 4 to 10, according to an announcement made by the Redpath-Vawter Chautauqua System, who is furnishing the attractions.

The man who holds the American record for battle-fyling over the German lines, Major Ray Claflin Bridgman will be one of the lecturers at our chautauqua this summer. Major Bridgman has spent 600 hours in the air, under battle conditions. This is said to be the record for an American aviator.

Major Bridgman was a student at Yale when the war broke out. He left his studies in 1916 and enlisted in the Foreign Legion of the French army. He was later transferred to the aviation section and soon became a pilot and flight commander in the famous LaFayette Escadrille. In the Escadrille he was associated with Lt. Col. Bill Thaw, Major Luftberry, Capt. James Norman Hall and other famous air fighters.

He has brought down eight Hun machines and has been decorated by both French and American fronts, and has He has had twenty-one months of actual battle-flying over the British, French and Americon fronts, and has participated in seventy-five aerial battles.

Major Bridgman was commanding officer of the 22nd Aero Squadron which destroyed 47 German machines in the last seven weeks of the war, in the battles of St. Mihiel and the Argonne. This is the record for American squadrons in these battles. He was shot down at St. Mihiel, just after he had brought down an enemy plane in flames.

At the chautauqua Major Bridgman will be the speaker in the afternoon of the big band and aeroplane day. His subject will be: "The Romance of the Clouds."

FOUR BREAK JAIL

TWO OF THE QUARTET ARE ARRESTED AT BURLINGTON JCT.

ESCAPE THROUGH WALL

The Two Thompson Boys Are Still at Large—Gibbs Notified Sheriff Dowden.

George Gibbs and "Red" Henderson, two members of the quartet which escaped from the county jail last night, were arrested at Burlington Junction today and are being held awaiting the arrival of Deputy Sheriff Atherton of this city who has been sent to bring them back. John and Charles Thompson, who assisted in the jail break is still at large and is being sought by the authorities.

According to Sheriff Dowden, Gibbs telephoned this morning where he was located and also where the two Thompson boys could be found. Gibbs was in a restaurant at Burlington Junction at the time. Sheriff Dowden got into communication with the constable of that township who picked up Gibbs

The youthful convicts chose a suitable time for their escape last night, the Sheriff being occupied at the court house with the Lyle jury, and no one being at the jail except his wife. According to the story told by Mrs. Dowden, she appeared at the entrance to the cells where the men were kept about 8 o'clock this morning to give them their breakfast. It was rather dark in the room, she said, and after calling several times and receiving no answer, she went inside to investigate. There she found a large hole in the stone masonry of the wall. A large slab had been removed and many of the bricks taken out and piled by the side of the aperture. Evidences of previous attempts to lift the stones out were shown by a sharp instrument.

According to Mrs. Dowden, loose bricks were found several days ago in the jail, and the belief is that the lads have been working for several days in an effort to make their escape carefully hiding the mortar and debris taken from the wall. Last night, she said, the men turned out the light about 9 o'clock and appeared unusually quiet. A table in the main corridor of the jail was recently broken by the boys, and a wire which was used in its construction was undoubtedly the instrument used to pick the mortar and loosen the bricks.

The escape last night recalls a similar incidence about a year ago, when the bars of the jail were sawed thru by the inmates. Sheriff Dowden was informed of the action through one of the prisoners, and was able to prevent the men from getting away.

The Thompson boys and Gibbs were up in court yesterday morning and had their sentence to the reform school increased one year more for breaking up furniture and scattering bed clothing around the jail. One of the Thompson boys, Charles Thompson, being under sixteen years, his sentence of two years to the reform school, was not changed by the court. The boys were up in court Monday on a charge of larceny, having pleaded guilty to stealing several articles from the Martin Pederson home near Guilford.

Henderson was just arrested yesterday on a charge of stealing chickens from Rolla N. Bancroft.

There were no other prisoners in jail.

This jail-breaking is another evidence of the bad condition of the jail building of being unsafe to keep prisoners in. The grand jury at the January term of court in their report said that Nodaway county had no jail.

The Smiths are leaving Pickering Friday for Bedford, Ia., to make their home and the gathering was a mark of friendship on the part of the people at Pickering who very much regret their departure from the town. The evening was spent informally with games, music and refreshments. Mrs. Smith was presented with a sterling souvenir spoon by her Sunday School class, the Royal Circle.

A Birthday Surprise.

One of the most pleasant social functions of the season was the Hays reunion which was held last Sunday, April 6, at the home of Mr. and Mrs. W. A. Argo, four miles west of Skidmore, the occasion being in honor of the eighty-first birthday of J. T. Hays of Maryville. His children had worked a complete surprise on their father which the aged sire hugely enjoyed. The dinner was all that the famished appetite of a hungry man could desire. We have neither time nor space for particulars but that chicken pie, well! It simply vanished out of sight like a fog before a Kansas cyclone. One pleasant feature at the dinner table was the lighting of eighty-one candles which decorated the birthday cake. The light they afforded gave only faint expression of the joyful countenance of the venerable man in whose honor they were lighted.

Mr. Hays came with his parents and other relatives from Blandinsville, Ill. in 1859. They made the trip in ox wagons and were twenty-six days on the road. They bridged both sections of Grand river and it became necessary to swim their thirty head of stock over the stream.

The party arrived at what is now familiarly known as Burr Oak on Mr. Hays' twenty-first birthday, April 4, 1859, and he says there was about one foot of snow on the ground. The land at that time was entirely unimproved. A double log house was hastily erected in which the party lived until a more commodious residence could be built. Of the original number who came on the above date only three survive. They are J. T. Hays of Maryville, Joseph Hays of St. Joseph, and Mrs. A. C. Barber of Skidmore.

Those present at the surprise dinner Sunday were: Mr. and Mrs. W. A. Argo and family, Mr. and Mrs. M. R. Hays and family, Mrs. Vira Dawson and children of Maryville, Mr. and Mrs. Pearl Hays, Mrs. A. C. Barber and Miss Maude Noffsinger of Skidmore, Mr. and Mrs. Z. R. Alexander of Elmo and Rev. and Mrs. C. H. Sauceman and family.

After wishing Mr. Hays many more such happy milestones of life, the crowd adjourned feeling that such social gatherings is time well spent.

Here's Glorious Relief From Itching Skin Diseases

No More Fiery Pain If You use the Right Treatment

First of all, get it firmly fixed in your mind that the fiery, burning and itching that causes such pain and torture, is not a local skin disease. True, the skin is the scene of the attack, but the skin is fed by the blood and suffers from any impurity in the blood.

This explains why you have been so disappointed in getting any real, lasting relief from the use of ointments, salves, lotions, or other remedies applied to the surface of the skin.

The millions of tiny disease germs which infest the blood keep up a constant attack on the skin, and are not effected in the least by local treatment. They must be routed from the blood.

These germs which saturate the blood cannot be reached except through the blood. When you treat the local irritations with local applications, you must remember that the blood is feeding fresh new germs all the time, to keep the skin irritated, and until the supply of germs is cut off entirely, you cannot expect any real relief.

But S. S. S., the fine old blood remedy, goes directly after the germs that infest the blood, and puts them to rout. This remedy is strictly a blood purifier, and there is no disease germ that can withstand its attacks.

This is why S. S. S. gives such satisfactory results in eczema, tetter, boils, pimples, or any other skin eruptions or disorder. By thoroughly purifying the blood, and cleansing it of every trace of disease germ, S. S. S. removes the cause of all skin eruptions, and restores its normal, healthy condition.

If you want relief that is lasting, because it goes to the seat of the trouble, get a bottle of S. S. S. today, and take it as directed, and satisfactory results will follow. It is sold by all drug stores. Special medical advice about your own case can be had without cost, by writing to Chief Medical Adviser, 102 Swift Laboratory, Atlanta, Ga.

BANQUET A SUCCESS

(Continued from page 1)

conferred by the institution was on a level and of the same value as that given at the State University. President Richardson said that a bill is now before the State Legislature for the appropriation of $250,000 for the development of the college, and that if the bill is passed, it will mean a great development and enlargement of the buildings and the accomodation of many more students here. He showed that the Normal school is an asset to Maryville, through the bringing of many out of town students here, and their consequent expenditure of money at the business houses. He stated that the Normal must have the co-operation of the town for its success, and stated that the faculty was interested in the work being done here in Maryville. "Every member of the faculty should be a member of the Commercial Club," he said, "and we also wish every citizen to show an interest in the work which we are doing here at the Normal."

Mayor W. O. Garrett, made a short talk in which he thanked the members of the club for their interest in the affairs of the city, and for their hearty support of the administration. He said that co-operation between the city and the Commercial Club was needed now, more than ever before.

Rev. Cox spoke of how co-operation in a community among the business men gives an impression of security, and how the spirit of security and honesty is one of the most beneficial assets of any line of business. Co-operation is the acid test of character," he said, "and is a real indicator of the bigness of a community.'

Rev. Cox punctuated his talk with many witty remarks, and had his audience in an uproar of laughter a great part of the time. He said that he was a believer in advertising and that a booster was one of the greatest assets of a community.

G. L. Wilfley spoke on "Looking Ahead" and in his talk recited a story which showed the value of optimism and enthusiasm. He compared the characters of his story to the citizens of Maryville, and showed how push, enthusiasm and new ideas are the things that will place this city to the front. He gave six basic principals on which the Club should act:: Optimisism, co-operation, breadth of vision, imagination, enthusiasm and activity.

A. A. Jeffrey, one of the newer residents of Maryville, gave his impressions of the city, and the reasons why he chose this city as his home. "One of the prime motives of my move here," said Mr. Jeffrey, "was the educational advantages offered here to my children. Maryville is one of the best eduactional centers in this part of the state, and the clean, high morals of the place make it one of the most desirable for a man with a family."

Dean G. H. Colbert of the State Normal School, spoke on "Why Every Citizen Should Be a Member of the Commercial Club.' He pointed out that the Commercial Club is an asset to every business man both from a selfish and from an unselfish standpoint. A progressive city attracts people he said, and acts as a stimulus to the value of real estate property, it also promotes better business. Dean Colbert pointed out that it is the duty of every man to help in the development of his community and to assist all projects which are for the betterment of his home life and conditions for his family.

During the program an interpretative dance solo was given by the Misses Mabel Raines and Ruth Miller and throughout the banquet music was furnished by Schumacher's orchestra.

R. P. Hosmer, Bruce Montgomery and Earl Barmann were elected members of the Board of Directors of the Club last night, and U. S. Lloyd was nominated to act as night watchman. He will probably be chosen at a later meeting of the organization.

The banquet was prepared and served by the women of the Y. W. C. A. of the Normal School, who were assisted n their work by members of the Y. M. C. A. The entire work of serving the banquet was under the direction of a faculty committee composed of Miss Hettie Anthony, Miss Katherine Helwig, and Mrs. Alice Perrin.

IN THE SPRING

When Energy and Vitality are Lowest, then—Influenza!

(By S. C. BOWER, M. D.)

At this time of the year people feel weak, tired, listless, their blood is thin, they have lived indoors and perhaps expended all their mental and bodily energy and they want to know how to renew their energy and stamina, overcome headaches and backaches, have clear eyes, a smooth, ruddy skin and feel the exhileration of real good health tingling thru their bodies. Good, pure, rich, red blood is the best insurance against ills of all kinds. You are apt to suffer from an attack of Influenza if your health is run down.

Purify the blood and you can defy influenza. This is the time to clean house and freshen up a bit.

It contains no alcohol or narcotics and is made into tablets and liquid. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial package.

Melvern, Kans.—"I was troubled with scrofula, in fact, I had it from infancy up until I took Dr. Pierce's Golden Medical Discovery, which was when I was fifteen years old. I took about fifteen or sixteen bottles of it and got entirely rid of the disease. It has never returned since that time and I have often recommended the 'Golden Medical Discovery' to others."—*Mrs. Ida V. Wilson.*

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young — to do this you must watch your liver and bowels — there's no need of having a sallow complexion — dark rings under your eyes — pimples — a bilious look in your face — dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.
